PROFESSIONAL EXPERIENCE

- Product & Operations Associate | GA Capital**

2025 to 2026 | New York, USA

Combined role across GA Capital and AnalystAI, spanning AI products and M&A advisory.

 - Worked between clients and engineering on AI products, translating requirements and feedback into clear product tasks and keeping them connected to implementation.
 - Tested end to end workflows with real use cases and product data, comparing expected and actual outputs to identify logic gaps, edge cases and patterns before release.
 - Worked with both international business clients and individual users across demos, onboarding, implementation and product feedback, including organisations such as Keppel Corporation, Marcus & Millichap, Thrive Senior Living and Socida.
 - Kept smaller workstreams moving by tracking open points, decisions and dependencies across the founder, clients and engineering team.
 - Worked on UK buy side transactions, supporting due diligence, financial modelling and analysis, investor and lender research, data room management and preparation of deal materials.
- Marketing Intern | Mentor Ozel Ders**

2024 to 2025 | Turkey

6 month internship completed during university

 - Planned weekly Instagram content around campaigns, tutor demand and seasonal periods, working with the team from idea and copy through publishing.
 - Organised team content shoots, coordinated schedules and practical details, and supported production on set.
- Marketing Intern | Docquity, Doctor Jobs Today**

2022 to 2023 | Singapore

18 month internship completed during university

 - Wrote blog and web content for healthcare audiences in Malaysia, the Philippines and Indonesia.
 - Worked in a regular feedback loop with the manager and content team, revising drafts, sharing weekly progress reports and adjusting work based on feedback.
 - Used keyword research and search intent to shape article structure and improve organic discoverability.
